

March 21, 1974

to vote one way or the other on it.

PRESIDENT: All right. Senator Chambers, what is your pleasure? Do you want to renew your motion? You're staying with your motion then? All right, the motion then is to that LB705 be bracketed for General File discussion March 26. That's the motion before the Body. Are you ready for the question? Senator Goodrich.

SENATOR GOODRICH: Except you had an amendment motion.

PRESIDENT: Well, you said you were going to move. You didn't tell me you did move.

SENATOR GOODRICH: I said if he didn't withdraw it...well, all right....I'll make the motion. To place his bill right behind Senator Snyder's bill.

PRESIDENT: All right now. Senator Chambers' motion has been amended by Senator Goodrich and that is that LB705 be placed right behind LB1026 on General File. That's the amendment before the house on bracketing that motion. All those in favor of the Goodrich motion, vote aye. Excuse me, Senator Chambers wants to be heard. Senator Chambers.

SENATOR CHAMBERS: Mr. President and members of the Legislature. This is Senator Goodrich's crowning moment of this legislative session. It gives him an opportunity to go back to his district and tell how he with malice slapped me down on an issue like this. So if you want to assist Senator Goodrich in a move which I consider most malicious, small minded and vindictive, I would advise you to vote for his amendment. There is no reason to put this bill further down on General File than it is now. I explained why the bill should be passed. I explained the need for its passage this session. Now, that's all I have to say on it one way or the other.

PRESIDENT: Now, Senator Goodrich. Excuse me, Senator Goodrich. Senator Fellman. Do you rise on a point of order or something, Senator Fellman? All right, Senator Chambers, will you yield to a question? Okay. Senator Fellman.

SENATOR FELLMAN: This bill that you want to move ahead involves the bar examination?

SENATOR CHAMBERS: Right.

SENATOR FELLMAN: And would apply to people taking the bar examination before what date?

(End of Belt #2A)
